## ONE KL

Who wasn't tempted by the ads that were plastered about KLCC, the ones showing the arc of a diver jumping into a private cantilevered pool? It seemed like the ultimate real estate tease and frankly, it worked. One KL's most salient feature is the fact that it has 94 apartments, 95 pools, an amazing aspect that's somewhat of a game changer in the KL market. Think of it: you wake up, yawn and—just stumbling out of your 30th floor super deluxe apartment—you take a swim, the glass at the front of your small personal pool serving as a fishbowl overlooking the KL downtown. Datuk Michelle Yeoh and Jean Todt, your upstairs neighbours, come by to borrow your creme brulee torch. Now that's living.
